# MX4141N MX5141N

## DYNAMIC PERFORMANCE WITH EXCEPTIONAL OPERABILITY

The MX4141N/5141N provides your business with the tools you need to gain the competitive advantage.

## FULL-COLOUR LEDGER-SIZE WORKGROUP DOCUMENT SYSTEMS

Sharp's new MX4141N/5141N Colour Series Document Systems combine the simplicity of touch-screen menu navigation with robust multi-tasking workflow features that can help virtually any office accomplish more in less time. A large 10.1" (diagonally measured) high-resolution, tilting touch-screen display offers groundbreaking real-time image preview with intuitive flick-and-tap editing to help ensure your documents are produced accurately and without waste. This new series also offers many advanced features such as a fully customizable home screen, dynamic action menus that provide feature-specific guidance, and a full-size retractable keyboard for easy data entry. Plus, with Sharp's enhanced second-generation micro-fine toner technology and true 1200 x 1200 dpi print resolution, this new series can help your business produce professional looking colour documents in-house with breathtaking image quality that is also economical. The new MX4141N/5141N colour series has been built on the latest Sharp OSA® development platform, making integration with network applications and cloud services easier than ever. And with Sharp's industry-leading security platform with standard 256-bit data encryption and

overwrite protection, you can

property is well protected.

That's the SHARP DIFFERENCE.

rest assured that your intellectual

## Engineered to deliver performance and productivity

**VERSATILE** 

**MULTI-FUNCTIONAL** 

**POWERFUL** 

**MULTI-TASKING** 

INTUITIVE

# Advanced features plus multi-functional capability allow you to meet tomorrow's document needs today.

- Large 10.1" (diagonally measured) high resolution touch-screen display offers real-time image preview feature with flick, tap and slide navigation, and pinch-and-zoom capability to shrink and enlarge images
- Fully customizable home screen feature enables users to add custom backgrounds and icons, change the display language and more
- 2,000-sheet tandem paper drawer option expands maximum online paper capacity to 6,600 sheets
- Flexible paper handling system feeds up to 80 lb. cover through the paper trays and up to 110 lb. cover through the bypass tray

- Scan both sides of a document in a single pass at up to 170 IPM with the standard
   150-sheet duplexing document feeder
- Standard Compact PDF feature dramatically reduces the file size of scanned colour documents, resulting in decreased network traffic and more efficient use of disk and cloud storage
- Standard full-size, retractable keyboard allows quick, easy and accurate data entry
- 1200 x 1200 dpi printing provides clear, crisp images even on jobs with fine detail
- Standard network ready PCL®6 and true Adobe® PostScript®3™ printing systems with direct print function and available XPS option
- Standard Wireless LAN connects to your network or allows users to print to and scan from the device via Sharpdesk<sup>®</sup> Mobile
- Web Browser feature with built in PDF Viewer allows easy access to web-based information and applications (standard on the MX5141N)
- Supports the latest Sharp OSA development platform, enabling businesses to easily integrate with network applications and cloud services
- Supports Sharp's award-winning security platform with standard 256-bit data encryption, up to 7 times overwrite protection, and convenient End-of-Lease feature

## REVOLUTIONARY MFP FEATURES TO STREAMLINE YOUR WORKFLOW

Full-size retractable keyboard simplifies data entry.

Easily edit documents in scan preview mode.

Intuitive copy screen shows options on the left and menu guidance on the right.

Available paper capacity stores up to 6,600 sheets.

## Flexible design to meet the needs of your environment.

### A Smart Touch-Screen Helps You Get Your Work Done Fast

The new MX4141N/5141N Colour Workgroup Document Systems feature a **10.1"** (diagonally measured) **high-resolution LCD** that goes beyond basic touch-screen menu navigation. With advanced features that include **flick**, **tap**, **slide**, **pinch and zoom**, you can quickly access the powerful functions of this new series. In addition, a **tilting display panel** provides enhanced accessibility. A built-in full-size retractable keyboard makes data entry quick and easy.

## **Easily Check and Edit Your Original Document**

Save time and help reduce waste by correctly executing your copy or scan your job the first time. With Sharp's **real-time scan preview and edit** functions, you can quickly rotate or delete pages, insert blank sheets, remove artifacts, change the colour mode, even check the staple position before executing your job. Dynamic action menus provide **feature-specific guidance**, so it is easy to determine your choices for each operation. For comprehensive, step-by-step instructions on any operation, simply open the **on-line user manual** and navigate to the feature you need.

## High Image Quality You Expect with the Performance You Need

The new MX4141N/5141N Colour Workgroup Document Systems utilize a powerful multi-tasking controller designed to quickly execute complex copy, print and scan jobs even in busy office environments. Plus, with print speeds of **41** and **51 pages per minute**, this new series can help elevate your office productivity to new heights. With **1200 x 1200 dpi** print resolution and Sharp's enhanced second-generation micro-fine toner technology, your business can produce professional looking colour documents with breathtaking image quality.

## Flexible Configurations for Today's Unique Office Environments

This new series offers a flexible paper handling system that includes an available 2,000-sheet tandem paper drawer. With **rugged paper tray handles** for easy access and available **on-line paper capacity for up to 6,600 sheets**, the machine is ready when you are. A standard 150-sheet duplex single pass feeder combined with automatic trayless duplexing, electronic sorting and integrated offset stacking, allow you to complete even large jobs in a snap.

## **Advanced Finishing Adds the Final Touch**

This series offers a choice of **four high-performance finishers** that can give your documents a professional look and feel. Choose from a **compact inner finisher**, a floor-standing 1K **saddle-stitch finisher**, a 4K saddle-stitch finisher or a 4K stacking finisher. All finishers offer three-position stapling and an available 3-hole punch.

MX5141N shown with saddle-stitch finisher and optional MXLC11.

## Versatile functionality for optimal quality and results

With Sharp's advanced job handling, you can retain print jobs on the hard drive for reprinting at a later date.

Sharp's integrated network scanning offers one-touch document distribution to multiple destinations.

Sharp's Document Filing System with thumbnail preview makes it easy to locate and retrieve stored jobs.

Advanced technologies deliver outstanding output quality and flexible document distribution at your fingertips.

#### **Exceptional Print Quality with Professional Looking Output**

With the MX4141N/5141N colour series, your business can produce brilliant, high-colour documents, as well as razor-sharp B&W documents. Plus, with 1200 x 1200 dpi resolution, even documents with fine detail will look great! Easy-to-use print drivers allow you to set up complex jobs with just a few mouse clicks. The standard Adobe® PostScript® 3<sup>TM</sup> driver delivers extensive colour control options, so you can manage colour consistency right from your desktop. For even more flexibility, add the optional XPS kit. With Sharp's advanced job retention features, jobs can be stored on the hard disk drive to be reprinted again and again by walk-up users or from the embedded web page.

#### **Integrated Network Scanning**

With Sharp's powerful **ImageSEND** technology, you get one-touch distribution features that help centralize document workflow, reduce mail costs and save time. With **multiple destinations** including E-mail, Desktop, FTP, Network Folders (SMB and Home Directory), USB, Fax and Internet Fax, getting your document where it needs to go is as easy as pushing a button. High-volume workgroups will appreciate the **Send to Group** mode that allows users to broadcast to a mixed group of E-mail, Fax, and Internet Fax destinations for increased efficiency.\* Convenient **Scan to Me** function lets log-in users send scanned files to their own E-mail address simply by pressing the Start button, eliminating the need to enter or select an address and thereby preventing documents from being sent to the wrong destination.

## **Convenient E-mail Distribution and Document Management**

With Lightweight Directory Access Protocol (LDAP), there's no need to manually enter a recipient's complete E-mail address. Simply enter the first few characters and it automatically searches and displays a list of matching names. And with **Sharpdesk®** personal document management software and the available Sharp OSA Network Scanner Tool (NST), users can easily organize their scanned documents and integrate them into everyday workflow.

Sharpdesk personal document software.

#### **Innovative Document Filing System for Easy Access**

Sharp's easy-to-use **Document Filing System** provides a hard disk drive to **store frequently used files** like forms, templates and reports. With **thumbnail preview** mode, stored jobs can be located and retrieved quickly. An advanced backup system and PIN-access security helps ensure your files are safe. For critical environments, an optional **back-up hard disk drive** is available.

### **Advanced Energy Saving Features**

This new colour series utilizes several energy efficient technologies to minimize power consumption and maximize energy savings. An **LED exposure lamp** reduces power significantly when compared to conventional exposure lamps. A customizable seven-day power management scheduler allows businesses to define the days and times when power will be turned on and turned off. Also, with Sharp's **Auto Power Management** function the MFP can be set to shut-off automatically based

on usage trends. Sharp's **Eco-Scan** mode can **shut off the fuser** when scanning documents, previewing images, faxing and other operations. A state-of-the-art **belt fusing system** consumes less power, shortens warm-up time and helps eliminate roller marks sometimes caused by conventional fusing.

State-of-the-art belt fusing system consumes less power and shortens warm-up time.

## GET MORE OUT OF NETWORK RESOURCES

## Streamline your document workflow and enhance productivity with Sharp OSA technology.

## Integrating With Network Applications and Cloud Services Has Never Been so Easy

With standard Application Communication and External Accounting modules, the MX4141N/5141N colour series offers **powerful document workflow capabilities** to help businesses leverage their network infrastructure, cloud-enabled services and more.\* While others are limited to a small circle of productivity, the Sharp OSA development platform allows businesses to leverage the power of their network applications, back-end systems, even cloud-enabled services, right from the touch-screen panel of this new series.

## **Save Time, Increase Efficiency**

You'll save time and increase the efficiency of everyday tasks with Sharp OSA technology because it can be virtually seamless to the user. Any MX4141N/5141N anywhere in the organization can display choices that were once only available on a desktop PC. With **one-touch access** to business applications via Sharp OSA integration, you can start and finish a document distribution task without worry.

\*Some features require optional equipment.

#### **Customized Integration**

Sharp OSA technology also provides **powerful customization**. With the ability to personalize applications and processes specific to your business, Sharp OSA technology can help eliminate redundancy and **streamline workflow**, helping to save time and **optimize productivity**. The latest version of Sharp OSA technology can reach beyond the firewall, enabling cloud-based applications over the Internet. And since Sharp OSA technology utilizes industry-standard network protocols such as SOAP and XHTML, third party software developers can deliver customized solutions to your business faster than ever.

#### The Convenience You Want With the Security You Need

The MX4141N/5141N colour series with the Sharp OSA development platform is the logical choice for providing fast, **flexible access to documents and applications**... no matter where you are in the office. You also get the controlled access and tracking ability you require with tighter integration capabilities for network security and accounting applications.

## Advanced device management tools maximize efficiency

# The MX4141N/5141N colour series document systems enhance operational efficiency through versatile device management capabilities.

## Sharp Remote Device Manager (SRDM)\*

Make management of your MX4141N/5141N simple and straightforward with Sharp Remote Device Manager (SRDM). This easy-to-use software allows you to take control of the versatile system features and simplifies installation and management.

- With Printer Status Monitor, network users can view printer conditions, check paper levels, toner, and more, all through an easy-to-use interface.
- With Sharp Remote Device Manager, administrators can easily manage the set-up, configuration, device settings, cloning and more. Advanced features such as **Remote Front Panel** allow administrators and support personnel to view and control the LCD panel of the machine remotely from virtually any PC on the network. Plus, with event-driven, real-time service alerts, administrators and supervisors can achieve higher productivity. Now it is easier than ever to view service logs, click counts, history reports and more.
- Experience the convenience of an Embedded Web Page right from your desktop. This advanced web-based management tool allows users to create and manage their own network scanning destinations, profiles and web-links. Administrators can access device settings, colour control, account information and security settings.

## **Take Charge of Colour Usage and Costs**

With Sharp's **device management system**, administrators and supervisors can **define user groups** on the MX4141N/5141N to manage and restrict features, such as colour copying, scanning or printing. Easily set-up a custom user group to manage page counts (copy, print, scan or fax operations) for both colour and B&W. This helps to simplify cost management of colour imaging. The MX4141N/5141N can store profiles for up to 1,000 users.

## 24/7 Training with My Sharp™

Managing all of the advanced features of your Sharp product is simple and easy. This dedicated customer training website is customized to your SHARP

MX4141N/5141N and allows you to locate resources and find information specific to your configuration, truly helping you maximize your investment.

Embedded Web Page

# HEIGHTENED SECURITY HELPS PROTECT YOUR BUSINESS

To help protect your data, the MX4141N/5141N offers several layers of **standard security**, making Sharp the optimum choice to help protect employees' privacy and intellectual property.\* As a leader in office equipment security, Sharp makes it easy for virtually any business or government entity to safely deploy digital copying, printing, scanning and faxing.

## **Authority Groups**

Advanced account management enables administrators to set authority groups for access to features of the MX4141N/5141N. Administrators can control which department, for instance, has full access to copying, printing, scanning and/ or fax. Walk-up users enter a Code, Local Name and Password, or LDAP User Authentication to access the features assigned to their group.

## **Data Overwrite and Encryption**

To help protect your data, the MX4141N/5141N can encrypt document data using **AES** (Advanced Encryption Standard) **256-bit encryption**. The MX4141N/5141N can also erase the temporary memory on the hard drive by overwriting the encrypted data up to seven times, offering an unprecedented level of assurance. A convenient **End-of-Lease** feature overwrites all data, including document filing, user data, job status, date and address book.

## Network Scanning Access Control

To help protect your network from unauthorized E-mail communications, the MX4141N/5141N supports **User Authentication**, requiring users to login before performing any network scanning operations.

## Control Device Access Over the Network

To help restrict access to the device over the network, the MX4141N/5141N offers IPsec, SMB and extended support for **SSL Encryption** (Secure Sockets Layer), **IP/MAC address** filtering, IEEE 802.1x authentication, protocol enable/ disable and port management for maximum security.

#### \*Some features require optional equipment and/or software.

## **Documents Remain Confidential**

The MX4141N/5141N offers **Confidential Printing**, which when used, requires users to enter a PIN code in order to print a queued document. To help protect your direct-print documents from unauthorized viewing, the MX4141N/5141N offers encrypted PDF printing and scanning. Additionally, **Secure Fax Release** ensures received fax documents are held in memory until an authorized user enters a PIN code.

## Tracking and Auditing Information

Legislation and industry policies require companies to be more aware of information flow from their offices. Sharp offers both built-in and additional hardware/software which allows users to control, access and track usage of each device on the network.

## Data Security Kit (Optional)

For maximum protection, the optional data security kit offers additional features, such as Data Overwrite On-demand and at Power Up, Document Filing access control, Incorrect Password Lockout, Restricted Status Display and List Printing.

These scalable security offerings aim to protect your intellectual property, preserve confidential information and help your business to meet regulatory requirements, such as the Personal Information Protection and Electronic Documents Act (PIPEDA).

## Environmental commitment

## An Environmentally Responsible Approach to Product Design

The MX4141N/5141N utilizes Sharp's advanced micro-fine toner technology, which offers a lower consumption rate and produces less waste than conventional toners, resulting in longer replacement intervals. Sharp supplies are packaged using fully recyclable materials. Long-life consumable parts help minimize service intervals and downtime, resulting in lower operating costs. With two different energy saving modes, power can be reduced or shut off at set intervals. All Sharp document systems are ENERGY STAR® qualified and RoHS compliant to restrict the use of hazardous substances.

#### **Toner Recycling Program**

As part of our commitment to helping preserve the environment, Sharp offers customers a toner recycling program for all Sharp copiers and MFP products. Sharp encourages customers to recycle their used Sharp toner cartridges by providing a pre-paid shipping label for their return to our facility. Please visit <a href="http://www.sharp.ca/en-CA/AboutUs/SharpAndTheEnvironment/Recycling.aspx">http://www.sharp.ca/en-CA/AboutUs/SharpAndTheEnvironment/Recycling.aspx</a> to learn more.

## **Environmental Leadership**

As a testament to our commitment to the environment, Sharp is a three-time winner of the ENERGY STAR annual Excellence in Energy Proficiency Product Design. Sharp was also a previous recipient of the Excellence in Partnership Green Contractor Award and the Evergreen Award from the General Services Administration (GSA) and the Coalition for Government Procurement. These awards recognize environmentally responsible businesses and their efforts on recycling, waste reduction and affirmative procurement practices.

#### **Global Initiatives**

Sharp is committed to environmental sustainability and corporate responsibility including planning, design, manufacturing, distribution and product end-of-life management. For more information about Sharp's environmental leadership including information about energy efficient products, electronics or toner cartridge recycling, please visit <a href="http://www.sharp.ca/en-CA/AboutUs/SharpAndTheEnvironment.aspx">http://www.sharp.ca/en-CA/AboutUs/SharpAndTheEnvironment.aspx</a> to learn more.
